

**JUROR'S STATEMENT:** Sometimes one walks into a show and immediately one knows the winners, which was not the case here. This show had a lot of very good quality work which made it hard to choose. Every category, specially photography and painting, had many strong entries that deserve distinction. Applying professional criteria and a considerable amount of time with each individual piece allowed me to make a decision based on the strength of the works.

First Prize is not only technically impeccable and with excellent composition. It manages to take a landscape and elevate it into an amazing work of art in the form of a photograph. It speaks of nature's grandeur and at the same time juxtaposes organic against mechanic elements as well as past and present, all within one perfect shot.

It was an honor and a great pleasure to have been given this opportunity to judge this show for your thriving and excellent community of artists.
