

JURORS STATEMENT:

It was an absolute pleasure to judge for the Boca Raton Museum of Art Guild exhibition. The awarded art works stood out because they were communicating more than just the mastery of media. I made my selection based on their expressive power and authenticity, along with some formal and technical accomplishments. I believe in artwork that reveals tangible forms of ideas, philosophies, and feelings. It was visible in captivating gaze of women, expressive mark making of nature and delicate use of color to convey the time of the day.

I very much enjoyed experiencing the art and I hope everyone enjoys the show.

HARUMI ABE, Juror
